## Directors' Report

The directors of Minotaur Exploration Ltd ('Minotaur') present their Report together with the financial statements of the consolidated entity, being Minotaur Exploration Ltd ('the Company') and its controlled entities ('the Group') for the half year ended 31 December 2013 and the Independent Review Report thereon.

### Director Details

The following persons were directors of Minotaur during or since the end of the half year.

Mr Derek Carter, *Chairman*

Mr Andrew Woskett, *Managing Director*

Dr Antonio Belperio, *Executive Director*

Mr Richard Bonython, *Non-Executive Director*

Mr John Atkins, *Non-Executive Director (Appointed 20 November 2013)*

### Review of Operations

#### **Corporate**

The key matters to note include:

- Held \$7.26 million in cash and term deposits at the end of December 2013.
- A Research and Development refund of \$980,000 was received from the Australian Taxation Office in December 2013.
- An 'off-market' takeover offer to acquire all of the issued shares of Breakaway Resources Ltd (Breakaway) was successfully made and concluded during the period. The offer closed on 18 October 2013 with Minotaur having received acceptances for over 91% of Breakaway's shares. Minotaur then moved to compulsorily acquire the outstanding shares with Minotaur gaining 100% ownership of Breakaway on 5 December 2013. Subsequently Breakaway was removed from the ASX's Official List.

#### **Project Development**

##### *Poochera Kaolin Project*

Market assessment of various kaolin products continued, including discussions with several off-shore kaolin consumers and kaolin producers. Corporate advisors are assessing a pathway to commercialisation, potentially based on a public offer and off-take arrangements.

#### **Exploration**

Exploration activity primarily focused on copper-gold in New South Wales and Queensland and on newly acquired gold prospects in Western Australia.

At the Arthurville porphyry copper project in New South Wales, data from ground IP surveys showed several promising drill targets. Access negotiations with land owners were well advanced at period end.

Several copper-gold projects in the Cloncurry region, western Queensland, formed the core of the company's exploration focus. At the Cloncurry joint venture (MEP 49%) drill investigations of EM

## Directors' Report

conductors at Woolshed Waterhole, Cotswald and Cormorant South targets were completed. Woolshed Waterhole returned anomalous intervals of copper and gold and warrants further geophysical modelling to assess strike potential for copper mineralisation. At the new Eloise Copper joint venture (MEP 100% and diluting) an intensive airborne EM programme identified numerous anomalies requiring drill follow up. Diamond drilling at the Osborne project (MEP 100%) evidenced wide spread IOCG style copper values and further geophysical interpretation identified over 70 priority targets for refinement and testing.

A new joint venture over the Leinster gold/nickel tenements in WA (MEP 100% and diluting) received immediate field attention with aircore drilling of 2 out of 7 target zones completed. Work will resume in the second quarter of 2014.

In Victoria, work on porphyry copper prospective tenements in the Stavely – Ararat district (MEP 100%) was deferred due to commitments elsewhere.

In South Australia, at the Border joint venture project (MEP 42.2%) and at the Bonython Hill EL (MEP 100%) new Native Title Part 9B requirements were imposed by the State regulatory authority, DMITRE. The formal agreements were executed early in January 2014 and remain with DMITRE for authorisation. A number of regional base metal targets await drill testing once these land access formalities are completed.

### Investments

## Notes to the Consolidated Financial Statements for the half year ended 31 December 2013

### Note 1: Nature of operations

Minotaur Exploration Ltd's principal activities are to carry out exploration of mineral tenements, to continue to seek extensions of areas held and to seek out new areas with mineral potential and to evaluate results achieved through surface sampling, geophysical surveys and drilling activities.

### Note 2: General information and basis of preparation

The condensed interim consolidated financial statements (the interim financial statements) of the Group are for the six months ended 31 December 2013 and are presented in Australian dollars (\$), which is the functional currency of the parent company. These general purpose interim financial statements have been prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 June 2013 and any public announcements made by the Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*. Minotaur is a for profit entity for the purposes of preparing these financial statements.

The interim financial statements have been approved and authorised for issue by the board of directors on 13 March 2014.

### Note 3: Significant accounting policies

The interim financial statements have been prepared in accordance with the accounting policies adopted in the Group's last annual financial statements for the year ended 30 June 2013, except for the application of the following standards as of 1 January 2013:

- AASB 10 Consolidated Financial Statements;
- AASB 11 Joint Arrangements;
- AASB 13 Fair Value Measurement; and
- AASB 119 Employee Benefits.

The effects of applying these standards are described below.

#### AASB 10 Consolidated Financial Statements

AASB 10 supersedes AASB 127 *Consolidated and Separate Financial Statements* and Interpretation 112 *Consolidation – Special Purpose Entities*. AASB 10 revises the definition of control and provides extensive new guidance on its application. These new requirements have the potential to affect which of the Group's investees are considered to be subsidiaries and therefore change the scope of consolidation. The requirements on consolidation procedures, accounting for changes in non-controlling interests and accounting for loss of control of a subsidiary are unchanged.

Management has reviewed its control assessments in accordance with AASB 10 and has concluded that there is no effect on the classification (as subsidiaries or otherwise) of any of the Group's investees held during the period or comparative periods covered by these financial statements.

## Notes to the Consolidated Financial Statements for the half year ended 31 December 2013

### AASB 11 Joint Arrangements

AASB 11 supersedes AASB 131 *Interests in Joint Ventures* and Interpretation 113 *Jointly Controlled Entities – Non-Monetary-Contributions by Venturers*. It aligns more closely the accounting by the investors with their rights and obligations relating to the joint arrangement. In addition, AASB 131's option of using proportionate consolidation for joint ventures has been eliminated. AASB 11 now requires the use of the equity accounting method.

The Group has a number of joint arrangements in place as at 31 December 2013. Management has reviewed the classification of its joint arrangements in accordance with AASB 11 and has concluded that they are joint operations.

The changes made to the standards outlined above are not expected to significantly impact the Group's financial statements.

### AASB 13 Fair Value Measurement

AASB 13 clarifies the definition of fair value and provides related guidance and enhanced disclosures about fair value measurements. It does not affect which items are required to be fair-valued. AASB 13 applies prospectively for annual periods beginning on or after 1 January 2013. AASB 134 *Interim Financial Reporting* requires particular AASB 13 disclosures in the interim financial statements which are provided in Note 14.

### AASB 119 Employee Benefits

AASB 119 makes a number of changes to the accounting for employee benefits, the most significant relating to defined benefit plans. AASB 119:

- eliminates the 'corridor method' and requires the recognition of remeasurements (including actuarial gains and losses) arising in the reporting period in other comprehensive income;
- changes the measurement and presentation of certain components of the defined benefit cost. The net amount in profit or loss is affected by the removal of the expected return on plan assets and interest cost components and their replacement by a net interest cost based on the net defined benefit asset or liability;
- enhances disclosures, including more information about the characteristics of defined benefit plans and related risks.

AASB 119 has been applied retrospectively in accordance with its transitional provisions.

Management does not expect the changes to AASB 119 to significantly impact the Group's financial statements.

### Note 4: Estimates

When preparing the interim financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgments, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Group's last annual financial statements for the year ended 30 June 2013.

## Notes to the Consolidated Financial Statements for the half year ended 31 December 2013

### Note 5: Significant events and transactions

During the period, the Company ceased exploring on several exploration tenements and incurred project generation costs which do not meet the definition of exploration costs. As a result, the carrying amount of these tenements held as exploration and evaluation assets and project generation costs were written off. The total amount of these write downs was \$1,122,071.

Minotaur's 'off-market' takeover offer to acquire all of the issued shares of Breakaway Resources closed on 18 October 2013 with Minotaur having received acceptances for over 91% of Breakaway's shares. Minotaur moved to compulsorily acquire the outstanding shares using the compulsory acquisition provisions of the Corporations Act, with Minotaur gaining 100% ownership of Breakaway on 5 December 2013. Breakaway Resources was then removed from the ASX's Official List. Further details can be found in Note 13.

At the end of the period, the Company's available-for-sale investments were revalued to market value at 31 December 2013. This revaluation resulted in an impairment expense of \$680,481 as per the following table:

<b>Company</b>	<b>ASX Code</b>	<b>Impairment Expense \$</b>
Mithril Resources Ltd	MTH	193,750
Mungana Goldmines Ltd	MUX	116,923
Petratherm Ltd	PTR	330,000
Variscan Mines Ltd (previously PlatSearch NL)	VAR	39,808
<b>Total</b>		<b>680,481</b>

### Note 6: Segment reporting

Management identifies its operating segments based on the types of business segments encountered by the Group. The Group's two main operating segments are:

- Investment: that being strategic investment by the Group in equity instruments of associates and other similar entities; and
- Exploration activities conducted.

During the six month period to 31 December 2013, there have been no changes from prior periods in the measurement methods used to determine operating segments and reported segment profit or loss.

## Notes to the Consolidated Financial Statements for the half year ended 31 December 2013

The following is an analysis of the Group's revenue and results by reportable operating segment for the periods under review.

## Notes to the Consolidated Financial Statements for the half year ended 31 December 2013

### Consideration transferred

Acquisition-related costs amounting to \$518,147 are not included as part of consideration transferred and have been recognised as an expense in the consolidated statement of profit or loss and other comprehensive income, as part of other expenses.

### Exploration and evaluation assets

The exploration and evaluation asset that arose on the combination can be attributed to tenement holdings over highly prospective geological areas and has been recognised as an exploration and evaluation asset. The exploration and evaluation asset that has been recognised is attributable to the mineral exploration segment.

### Breakaway's contribution to the Group's results

Breakaway contributed \$3,303 and \$349,190 to the Group's revenues and losses respectively from the date of acquisition to 31 December 2013. Had the acquisition occurred on 1 July 2013, the Group's revenue for the period to 31 December 2013 would have been \$463,195 and the Group's loss for the period would have been \$2,479,510.

### Note 14: Fair value measurement of financial instruments

#### Fair value hierarchy

AASB 13 requires disclosure of fair value measurements by level of the fair value hierarchy, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group's financial assets and financial liabilities measured and recognised at fair value at 31 December 2013 and 31 December 2012 on a recurring basis are as follows:

	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
<b>31 December 2013</b>

<b>Net fair value</b>	<b>3,497,754</b>	-	-	<b>3,497,754</b>

**Measurement of fair value of financial instruments**

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

**Listed securities**

Fair values have been determined by reference to their quoted bid prices at the reporting date.

**Fair value of other financial assets and financial liabilities**

The carrying amounts of other current and non-current receivables and payables are considered to be a reasonable approximation of their fair value.
